In addition, the (a) dividends, (b) cash back dollars, (c) reimbursements of iTunes, Amazon.com and Google Play purchases and (d) the nationwide ATM withdrawal fee refunds earned through the linked checking account are transferred into the Kasasa Saver account at the end of the cycle period to help the consumer save.

Dividend Rate & Annual Percentage Yield (APY)

- **Compounding & Crediting:**

Dividends will be compounded on a monthly basis. Dividends will be credited to your Kasasa Saver account on the last day of the current statement cycle. If you close your account before the dividends are credited, you will not receive the accrued dividends. Dividends begin(s) to accrue on the business day you deposit noncash items (for example, checks).

"Business Day" means a calendar day other than a Saturday or a Sunday, January 1, the third Monday in January, the third Monday in February, the last Monday in May, July 4, the first Monday in September, the second Monday in October, November 11, the fourth Thursday in November, or December 25. If January 1, July 4, November 11, or December 25 falls on a Sunday, the next Monday is not a Business Day.

"Statement Cycle" means the period of time for which Upward Credit Union provides a summary of the financial activities and transactions that post and settle to the accountholder's account.

- **Balance Computation Method:**

We use the average daily balance method to calculate the dividends on your Kasasa Saver account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period. The period we use is the Statement Cycle.
